## Commitment to Diversity

Shook Construction is a leader in promoting economic inclusion within the construction industry. In fact, economic inclusion and diversity is one of our core values. This doesn't apply only to our project and our use of subcontractors and suppliers. Most importantly, diversity is a priority within our own hiring process. It's a priority not only because it is the right thing to do, but also because we want our workforce to reflect the communities we serve. We are committed to embracing our differences to stimulate creativity and innovation for everything we do.
