

Shook Construction

INDUSTRIAL

making 'Made in the USA' a reality

EXPERIENCED TEAM

Shook Construction has provided construction services for major industrial buildings for over 50 years. Over that period, we have developed best practices for how to work in the heavy industrial environment. Whether you are looking to build a new facility or renovate an existing plant, our team will provide you with individual attention to make your construction project successful.

IN LAST 7 YEARS

614 THOUSAND
SQUARE FEET
new construction

1.1 MILLION
SQUARE FEET
renovation

OCCUPIED FACILITIES

Many of our projects involve working in, around, above, or below existing facilities. We know how to get in, accomplish our work, and get out—all with minimal impact to your ongoing operations.

making 'Made in the USA' a reality

CLEAN ROOM EXPERIENCE

Whether or not you need ISO-class clean rooms, our team has experience building clean room spaces necessary for some clients, such as food plants.

SELF-PERFORM CAPABILITIES

Adding flexibility to your project, we offer self-perform services to keep the project moving forward. We can mobilize field personnel quickly and perform work 24/7 to achieve project goals.

CLIENTS

We are proud that we have many repeat clients, thanks to the commitment and amazing work our team devotes to each project.
