OVERALL RANKING

#268

OVERVIEW

Founded in 1926, Shook Construction has a rich history of providing construction expertise throughout the Midwest and Mid-Atlantic. We are recognized as a top-ranked contractor and a leader in the industry for our strength in traditional construction methods and our innovative approach to cutting-edge technologies and delivery systems.

We deliver comprehensive construction services, including preconstruction, estimating, construction management, self-perform work, Building Information Modeling (BIM), and Virtual Design and Construction (VDC). By integrating technology, collaboration, and deep construction expertise, we help clients achieve reliability in planning and execution while our teams maintain a steadfast commitment to quality, safety, and excellence.

MARKET EXPERTISE

Shook serves a diverse range of markets, delivering the facilities and infrastructure that communities depend on every day:

Advanced Manufacturing
Aviation & Aerospace
Data Centers

Education
Healthcare
Water Resources

MISSION AND CORE VALUES

At Shook, we build lasting relationships with our clients, trade partners, team members, and communities. Our Core Values – Passionate, Authentic, Curious, and Empowering – shape how we work, lead, and make an impact every day.

Our Mission, *To Dramatically Improve the Communities We Serve*, is brought to life through five pillars:

- **Community Outreach:** Giving back through service projects in the communities where we work.
- **Community Leadership Initiative:** Encouraging leadership and service with local and industry organizations.
- **Global Mission Trips:** Sending team members around the world to build projects that improve quality of life.
- **The Shook Foundation:** Investing in transformational causes through charitable grants.
- **Workforce Development:** Inspiring the next generation of builders through hands-on learning opportunities and career exploration.
